

### Classroom News

March has flown by and spring has arrived! Now we just need it to warm up! We have gone outside looking for changes and signs of spring. We have seen lots of buds and flowers! We will keep talking about how the season will change. We also had a visit from the leprechaun in March. He made quite a mess in our room. Even though we set a trap we didn't catch him. Maybe next year. We talked a lot about Easter and we made a few Easter crafts. We have also been working on things to prepare for spring conferences.

### Important Dates

4/8 – School reopens

4/12 – Play on Music program at school

4/17– Camp registration at drop-off and Mrs. I's Birthday!

4/18 – Spring conferences (no school)

**4/19 – Spring conferences for our class (no school)**

4/22-4/26 Spring Book Fair

5/1 and 5/2 – John Gallen spring pictures (outside weather permitting)

5/10 - Mother's Day Tea 10:

More info will come home as we get closer.

### This Month

We will continue to talk about spring and what changes we will see outside. We will also be receiving our caterpillars. We will take care of them and observe them while they move through the stages to become butterflies. They will arrive after Easter break. We will also be talking about dinosaurs which is a very popular topic in our room. We will be getting ready for spring conferences. Reminder that there is no school on Thursday and Friday that week and our conferences are on Friday. I will post a sign up genius for time slots. As always if that day doesn't work for you we can make other arrangements. Child care for you conference time is available in the Readiness Room. Registration for summer camp will be on Wednesday, 4/17 at drop-off. **No registrations will be accepted before this date.** Once camp is full, we will stop accepting registrations. Looking ahead for scheduling purposes, we will have our Alex's Lemondade stand at pick up on Thursday, 5/9. Graduation will be on Wednesday 5/22 and our last day of classes is Thursday, 5/23.

### What We Are Learning This Month

Literacy – letters X, Y and Z

Math – sorting, counting by 2's and 10's

Science – our caterpillars arrive, and we will watch them as they turn into butterflies.
