

Classroom News

March has flown by and spring has arrived! We have gone outside looking for changes and signs of spring. We have seen lots of buds and flowers! We will keep talking about how the season will change. We also had a visit from the leprechaun in March. He made quite a mess in our room. Even though we set a trap we didn't catch him. Maybe next year. It was good talking with everyone at conferences. Thank you for meeting with me and if you have any other questions or concerns, please let me know.

Important Dates

4/15 – summer camp registration at drop off

4/17 – last soccer/yoga special

4/23 – In-house play on music field trip

4/24 – last dance/karate special

5/3 – Blue Rocks game

5/7 – Alex's lemonade stand at 11:45 in the lower parking lot

5/8 – Mother's Day Tea 10:30

5/12 – Coverdale Farms field trip drop off 9:30, pick up 11:30 at the farm

This Month

We will continue to talk about spring and what changes we will see outside. We will also be receiving our caterpillars. We will take care of them and observe them while they move through the stages to become butterflies. Now that we have hopefully past the freezing temperatures we will start seeds in our garden. The bulbs we planted in the fall are all growing and blooming. Registration for summer camp will be on Wednesday, 4/15 at drop-off. No registrations will be accepted before this date. Once camp is full, we will stop accepting registrations. Our last soccer/yoga Friday specials is on 4/17. Due to needing a make up class, dance and karate will end on Friday, 4/24. Looking ahead we will have a Mother's Day Tea on Friday 5/8 at 10:30. We will meet you at the downstairs doors. We will have a field trip to Coverdale Farms on Tuesday, 5/12. You will need to drop off your child to us there at 9:30 and return to pick up your child there at 11:30.

What We Are Learning This Month

Literacy – Y and Z

Math – sorting, counting by 2's and 10's

Science – our caterpillars arrive, and we will watch them as they turn into butterflies
